# Mashkoor Alam
Java Technical Lead
Mobile No: +91-8951495832
Email Id: mashkooralam90@gmail.com

Summary:

- About 8 years of diversified and progressively challenging experience of IT Industry in Developing JAVA and J2EE applications including Analysis and Design.
- Excellence in Java Application development ranging from contribution in design and development of Application.
- Expertise in developing well designed, efficient and testable code.
- Experience in building Micro-Services application using Spring boot.
- Experience in BMC Remedy applications development/customization.
- Expertise in core Java and good experience in MVC Architecture using J2EE technologies.
- Proficient in developing Web Applications using Java, J2EE technologies
- Experience in Spring, Spring-Boot, Hibernate, JPA and J2EE Design Patterns.
- Experience in source code management using SVN, GIT, CVS and Maven.
- Experience in using Apache Kafka, Apache ActiveMQ.
- Experience in Agile Software Development Methodology.
- Experience in REST web services and Swagger Documentation of REST web services.
- Experience in Design, Code Review, LLD, HLD and architecture diagram.
- Good experience in providing solutions with Application and Web Servers like Apache Tomcat.
- Good business and application analysis skills and professionalism in transforming business requirements into technical specifications.

Skills:

Java, J2EE, JSP, Spring, Spring-Boot, REST, Microservices, JDBC, JPA, Hibernate, Active MQ, Kafka, JSON, Swagger, TWILIO, Activity, BMC Remedy, Kubernetes, Docker, Jenkins, Oracle, Postgres, MySQL, Mockito, Github, SVN

Work History:

- **Infogain India Pvt Ltd**
  Java Technical Lead
  [Dec 2019- Till date]

- **IRIS Software**
  Senior Technical Consultant
  [Nov 2018- Dec 2019]

- **CenturyLink Technology** [Currently knows as Lumen Technology]
  Senior Software Engineer
  [July 2015- Nov 2018]

Education Details:

- *B.Tech in Information Technology in 2012 with 1st division.*
- *Senior Secondary in 2007 with 1st division.*
- *Secondary School in 2005 with 1st division.*

Current Project Details:

Name: NCR APTRA Vision 4.x
Client: National Cash Register (NCR corporation)

Description: Vision 4.X is an application to manage client's ATMs such as tracking location of ATMs, Managing the cash count, managing the incident associated with it. APTRA Vision's Incident Management (Vision IM) feature is an automated service-level management system designed to identify problems that occur to your networked Terminals i.e., ATMs. Vision IM tracks the problems, dispatches service teams if necessary, and solves the problems without relying on Help Desk operators. Vision IM continually monitors the operational status of your Terminals. When a situation with an ATM occurs, Vision IM takes immediate action according to defined procedures.

Responsibilities:

- Performing requirement analyses.
- Developing the detailed design structure after understanding the requirements and the design.
- Writing high-quality code for the application.
- Conducting unit testing using unit test frameworks.
- Back-end developer to provide solution for different problem statements stories or bugs in the application using Java.
- Identifying risk and conducting mitigation action planning.
- Providing the support to end customers for production bugs/defects and provide fixes for same.
- Reviewing the work of other developers and providing feedback.
- Using coding standards and best practices to ensure quality.
- To work with the Technical Architect on the integration of products.
- Troubleshooting and resolving the reported issues and replying to queries in a timely manner

Other Projects:

- ✓ GS1-Check Service
- ✓ TAG
- ✓ SADS
- ✓ ANTS
- ✓ CNOS
- ✓ NTM.

Achievements:

- ✓ Infogain's Employee of the month Award.

- ✓ IRIS Employee of the month Award.

- ✓ Centurylink's Director Award [for high performing individuals].
